Description

Rubberized Undercoating contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols. Dries to a tough, flexible rubberized coating for maximum durability. Protects, seals and insulates against moisture, salt and road chemicals, dust and dirt. Will not freeze or crack in cold and will not sag or drip. It is abrasion resistant, and will not peel. Seals, insulates and soundproofs.

Applications

Wheel wells, auto frames, underbody rocker panels, fenders, hoods and gas tanks. Can be used on heavy trucks, hoists, cranes and tractors. Also great for metal sinks, rain gutters, roofs, metal walls and metal ducts.

Directions

Shake can before use for approximately 60 seconds. Clean surface free of dust, dirt, oil, wax, rust and loose paint. Surface must be completely dry. Accidental overspray can be removed with safety solvent or mineral spray. Hold can upright 12-16" from surface. Spray with short even strokes. Clean spray button immediately by holding can upside down and spraying until only gas is released.
