Description

Quality Aerosols Cutting & Tapping Fluid is a special cutting and tapping fluid formulated for all types of machine shop use. This high performance coolant and lubricant increases production, protects tools and helps provide quality machine parts. It holds up under extreme pressure, is safe for use on all metals and is non-flammable. This is a heavy-duty concentrated cutting and tapping fluid fortified with added mineral oil and an extreme pressure additive. This product can be utilized on most difficult machining operations.

Applications

Our Cutting & Tapping Fluid works on all types of machines. This is a high performance coolant and lubricant that will protect all types of tools, bits, drills and other machinery. This Cutting & Tapping Fluid is excellent for use on cast iron, aluminum and even copper.

Directions

Shake can before use for approximately 30 seconds. Spray liberally in short bursts from 5 to 6 inches. Repeat as needed. Built in lubricity provides good lubrication for centerless grinding. Gives residual lubrication on machine tools. Cleans while running and leaves machine tools clean and free of chips and swarf, grinding wheels remain clean. Contains no nitrites and had rapid heat removal.
