

## Product Data Sheet

### HIGH STRENGTH ADHESIVE #QUA01228

#### High Strength Web Adhesive

#### Features

- Bonds All Laminates
- Plastic to Plastic Bonds
- Great on Wood, and Much More
- Web Pattern 1" - 4"
- Great for the "Do-It-Yourselfer"

#### Description

Quality Aerosols High Strength Adhesive will give you professional results on all of your home projects. Our High Strength Adhesive is a very strong, fast drying contact-like adhesive. Our High Strength Adhesive is ideal for laminates to tables, cabinets and all types of shelving. Great for all types of applications including kick plates, metal, wood and for bonding polyethylene to polyethylene and to other substrates. This is the Do-It-Yourselfers best helper.

#### Applications

Used for the permanent or temporary bonding of wood, metal, polyethylene, and most other plastics.

#### Directions

Shake can before use for approximately 60 seconds. Make sure surface is free of dust, dirt, oil, wax, rust and loose paint. Surface must be completely dry. Point Applicator towards the surface to be coated. Depress tip and spray onto the surface to be joined & allow adhesive to cure (approximately 2-3 minutes). Then press both substrates together for approximately 3-5 minutes.
