SILICONE SPRAY

#QUA01049

Reduces Friction and Eliminates Drag

Features

- Reduces Friction
- Eliminates Drag
- Will Not Stain Fabrics
- Long Lasting
- Contains No Fluorocarbons

Description

Quality Aerosols Silicone Spray is guaranteed not to stain fabric and is great for use on sewing machine attachments to eliminate material drag when stitching rubber, fabrics, laminating foam, synthetics, leatherette, pile fabrics, etc. Material feeds through like magic. Use in the cutting department to prevent clicker dies from sticking to the block and material from sticking to the die. Apply to cutting machine blades, drills, shears, etc. Reduces friction on the cutting table and prevents buildup of static electricity. The Silicone Spray is long lasting.

Applications

Works great on all industrial, agricultural, marine, automotive, commercial, construction, and mining applications. In addition, it works great on cutting machine blades, drills, shears, cutting tables, irons, garment presses and creasing machines.

Directions

Shake can before use for approximately 30 seconds. Works on clean, dry surfaces only. Apply a thin coating of silicone to the machine or tool to be treated. Re-apply as needed.
