#### Description

Quality Aerosols HD Web Adhesive is a high strength, fast tack adhesive. Our adhesive is specially formulated for permanent or temporary bonding. Our Heavy Duty Web Adhesive is most effective when both surfaces are coated. It can be used on cloth, fabrics, leather, cardboard, foam and most plastics. It has high solids and has a water-resistant bond, quick tack and high temperature resistance. All surfaces should be tested for compatibility before using. Product should be used at room temperature of at least 70°F.

#### Applications

Used for the permanent or temporary bonding of cloth, leather, cardboard, foam, fabrics, and most plastics.

#### Directions

Shake can before use for approximately 60 seconds. Make sure surface is free of dust, dirt, oil, wax, rust and loose paint. Surface must be completely dry. Point Applicator towards the surface to be coated. Depress tip and spray onto the surface to be joined & allow adhesive to cure (approximately 2-3 minutes). Then press both substrates together for approximately 3-5 minutes.
